Grow at Home

Find a quiet place, away from distractions. Spend some time praying for God to help you understand what you are going to study.

Look over your sermon notes from the weekend. Did you ever think you didn't have enough faith? Why or why not?

Read Hebrews 11

1. Hebrews 11 talks about different people that had faith. Who were some of the people and what did they do to show their faith?
2. What does it say at the end of the chapter in verse 39?
3. Is there areas in your life where you need to be more obedient and trust God enough to do what he says?
4. What are some things you can do to have more FAITH?

Spend some time in prayer thanking God for His love in spite of our mistakes. Make sure you share with someone what you learned today.
